

CODE SMELLS & SEED FILES

guided notes

CODE SMELLS & SEED FILES

When & how often should you refactor your code?

- A. Once a week
- B. Once a day
- C. Once an hour
- D. Often! All the time! Code can always get better :)

What are some common causes of code smells (aka some common issues you should fix!)?

What does a seed file do?

What is the name of the Ruby gem you will use to generate fake data?
